

KEY FEATURES

Targeted Exposure

CHIL offers large-cap exposure to China – the world’s second largest economy by GDP.

ETF Efficiency

In a single trade, CHIL delivers access to a broad basket of 50 large-cap Chinese securities.

All Share Exposure

The Index incorporates all eligible securities as per MSCI’s Global Investable Market Index Methodology, including China A, B and H shares, Red chips, P chips and foreign listings, among others.

The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. High short-term performance of the fund is unusual and investors should not expect such performance to be repeated. Returns for periods greater than one year are annualized. Market price returns are based upon the midpoint of the bid/ask spread at the close of the exchange and do not represent the returns you would receive if you traded shares at other times. For performance data current to the most recent month end, please call 1-888-493-8631, or visit www.globalxetfs.com.

DEFINITIONS

MSCI China Top 50 Select Index

The MSCI China Top 50 Select Index is based on the MSCI China Index, its parent index, which captures large- and mid-cap representation across China A, B and H shares, Red chips, P chips and foreign listings (e.g., American Depository Receipts). The Index aims to represent the performance of the largest 50 securities from China which meet minimum size and liquidity requirements and uses a full inclusion weight for A shares. To avoid concentration, the Index is then capped as per the MSCI 10/50 Index methodology which constrains the weight of any single group entity at 10%, and the sum of the weights of all group entities with a weight of more than 5% at a maximum of 50%.

Global X Management Company, LLC serves as an advisor to the Global X Funds. The Funds are distributed by SEI Investments Distribution Co. (SIDCO, 1 Freedom Valley Drive, Oaks, PA, 19456), which is not affiliated with Global X Management Company, LLC or Mirae Asset Global Investments.

Investing involves risk, including the possible loss of principal. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Securities focusing on a single country and narrowly focused investments may be subject to higher volatility. CHIL is non-diversified.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the fund. Brokerage commissions will reduce returns. Global X NAVs are calculated using prices as of 4:00 PM Eastern Time. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.

Global X Funds are not sponsored, endorsed, issued, sold or promoted by MSCI, nor does MSCI make any representations regarding the advisability of investing in the Global X Funds. Neither SIDCO, Global X nor Mirae Asset Global Investments are affiliated with MSCI.

Since the Fund's shares did not trade in the secondary market until several days after the Fund's inception, for the period from inception to the first day of secondary market trading in Shares, the NAV of the Fund is used to calculate market returns.

Carefully consider the fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the fund's full or summary prospectus, which may be obtained by calling 1.888.493.8631, or by visiting globalxetfs.com. Please read the prospectus carefully before investing.
